## OBJECTIVE

Innovative and detail-oriented Flutter developer with experience in converting Figma designs into fully functional mobile applications. Proven ability to collaborate with cross-functional teams and implement comprehensive UI/UX solutions. Seeking to leverage expertise in app development, Firebase, and state management to contribute to dynamic projects and drive impactful results. Eager to learn new things and continuously improve.

## SKILLS

- Flutter
- Dart
- Restful API
- Firebase
- Hive
- UI/UX
- Figma
- CapCut
- Postman
- VS Code
- CI/CD (GitHub)
- State Management | Bloc | Provider
- Android Studio

## EXPERIENCE

- Professional Development:** Learning Flutter: 5 months
- Codeminers:** Junior Flutter Developer | July, 2023 - July 2024 | 1 year, 1 month

## PROJECTS

- Ghoomo Phiroo Pakistan :**  
Converted Figma designs to a Flutter app; collaborated with the team. The application is now live on the Play Store and iOS App Store.
- Social Media App :**  
Developed UI, implemented Google and phone authentication with Firebase, performed CRUD operations, integrated dummy API calls, and used BLoC for state management.
- My Notes :**  
Created a local note-taking app using Hive for storage and Provider for state management.

## EDUCATION

2021 -2025 | The University of Lahore

Bachelor of Computer Science (expected 2025)
