GitHub: <https://github.com/umairkhanzz>

Address: DHA Phase-3, Lahore

## SKILLS

### Tools & Technologies

JavaScript, React JS, Redux Tool Kit, Next JS, HTML5, CSS3, Bootstrap, Tailwind CSS, Agile methodologies, Responsive UI, Git, Github, Postman, Figma, Photoshop, BitBucket, (Node js, Laravel, PHP) familiar.

### Objective

To excel in the field of computer science web development by creating innovative and efficient web solutions that enhance user experiences and meet evolving technological demands.

### Languages

Urdu (Native), English, Arabic.

## EXPERIENCE

### Capps Solutions (Frontend developer)

AUG 2023 - PRESENT

- Specialize in developing responsive landing pages and dynamic web pages using HTML, CSS, and CSS preprocessors such as Sass. Additionally, I have extensive experience utilizing CSS frameworks like Bootstrap and Tailwind CSS.
- Working on frontend development, focusing on React.js and Redux for building Single Page Applications (SPAs), with additional proficiency in Next.js. I collaborate closely with the API development team to promptly address any identified non-conformances or issues.

**Technology Stack used: (Tailwind CSS, JavaScript, React.js, Redux Tool Kit and Next.js)**

### Plural Dynamics

March 2023 – August 2023

- As a frontend developer proficient in HTML, CSS, and JavaScript, I excel in crafting intuitive user interfaces and responsive designs. Additionally, I leverage Tailwind CSS for efficient styling and employ React.js for enhancing interactivity and functionality in web applications.

**Technology Stack used: (HTML, CSS, Tailwind CSS, JavaScript and React)**

## PROJECTS

### Parkmate (<https://valet.parkmatebh.com/>)

- I developed a comprehensive parking web application offering online booking services and valet options. Utilizing React.js and Tailwind CSS for frontend development, I integrated these technologies with a Laravel backend. This involved proficient API integration and ensured seamless functionality across the platform, enhancing user experience and operational efficiency.

### IntelliSource (<https://github.com/umairkhanzz/IntelliSource>)

- Develop a sophisticated blogging application using React JS and Redux Toolkit. This includes seamless integration of APIs from a Node.js backend, ensuring robust functionality and efficient data management. Our focus is on delivering a user-centric platform that enhances content creation, management, and engagement through a modern, responsive interface.

## EDUCATION

### Graduated

JUNE 2023

**University of the Punjab (Bachelors in Computer Science)**

**CGPA: 3.54**

**Major Subjects:** DSA, OOP, Programming, Web Technology, Artificial Intelligence, Mobile Application, Enterprise application development.
