## EXPERIENCE

### Trainee Software Engineer

07/2024 - 10/2024

Programmers Force

- I worked on a group product that involved developing both a screen recording extension and a website using Vue.js, Vuetify, and Vuex. My role in the extension included building its core functionality, which allowed users to record their screens from the browser. We used Vuex for efficient state management and Vuetify to create a responsive, clean design.
- I also worked on the product's website, focusing on front-end development and ensuring a smooth, intuitive user experience.
- I helped design and implement features that made the site responsive and user-friendly across different devices
- Focused on clean and efficient code.

### Front-end Developer Intern

09/2023 - 01/2024

Ghani Soft

- Developed responsive user interfaces using HTML, CSS, tailwind CSS, and JavaScript, ensuring cross-browser compatibility

## PROJECTS

### Screen Recording Website and Extension

- Developed a screen recording website and extension that helps to record the screen and voice like loom video.  
**Technologies** : Vue JS, Vuetify, and Vuex

### Bloom Cart Website

- We designed and developed an online plant sales website for our semester project. Our platform allows users to explore, select, and buy plants, accompanied by valuable supplementary services. This project showcased our expertise in web development, e-commerce, and user-centric service integration.  
**Technologies** : Vue js, Express Js, Node js

### Real time car detection and tracking through video stream (2023)

- For my final year project, I created a Java-based mobile app for real-time car tracking using GPS technology. The app featured advanced capabilities like Automatic Number Plate Recognition (ANPR) and speed detection, enhancing security measures alongside real-time location tracking.  
**Technologies** : Android, Machine learning

## HOBBIES & INTERESTS

Drawing and Painting

Crafting

Book Reading

## EDUCATION/COURSES

### BS, Computer Science

2019 - 2023

University of Mianwali

## TECHNICAL SKILLS

JavaScript

Vue JS

Vuetify

Vuex

Express JS

Node js

Rest API

Git

Github

JQuery

HTML and CSS

Bootstrap

Communication Skills

Problem Solving Skills

## ACHIEVEMENTS

- Got merit scholarship from PEEF for BSCS
- Received Ignite funding for our Final year project
- Received Laptop from Prime Minister's youth laptop scheme 2023

## CERTIFICATES

- Certificate of introduction to Front End Development by Meta
- Certificate of Front-end Developer Capstone by Meta
- Certificate of version control by Meta
- Certificate of User Designing and Experiences by IBM

## LANGUAGES

Urdu

English

## QUALITIES
