## ABOUT ME

I am an energetic and collaborative software engineer, having good analytical skills to solve complex problems. I'm always excited to work with new technologies and stay ahead in competition.

## WORK EXPERIENCE

React JS Trainee at SeeBiz PVT LTD

Jan 2024 - July 2024

- Making websites responsive using HTML, CSS and Bootstrap. Integrate Api's using React JS.
- For state management of the Application use Redux. Collaborate with the team of the developers and the designers, effectively
- communicating and coordinating with them to ensure timely delivery of projects milestones while continuously

improving the websites functionality and performance.

## Training Programme

I've completed a 6-month Frontend Developer training program at SeeBiz PVT LTD, where I gained practical experience in a variety of languages. This intensive training has equipped me with the skills to develop dynamic and responsive web applications, enhancing my technical and problem-solving abilities.

## EDUCATION

BACHELORS OF SCIENCE IN  
COMPUTER SCIENCE FROM  
Superior University Lahore

## TECHNICAL SKILLS

- HTML / CSS
- Bootstrap / Tailwind CSS
- Javascript
- React JS
- Git

## MAJOR PROJECTS

### Online Property Web App:

- This is my Final year project and this is about selling and purchasing online plots, houses and farm houses. I worked as a front-end developer on this project to design and integrate Api's.

### FOODOMA

- This project is related to the Food ordering App and I worked on this project as a React Js developer. I designs the frontend of the application in Bootstrap and integrate Api's.
