Soft Skills

- Problem Solving

Languages

- JavaScript
- C++

PROFILE

My name is Mudassar Kareem and I am a Mern stack developer skilled in Reactjs, JavaScript and Nodejs with a passion for learning new tech stacks and AI.

PROJECTS

Multi-Vendor E-Commerce Platform | [repo link](#)

Developed a dynamic multi-vendor e-commerce website using the **MERN stack** (MongoDB, Express, React, Node.js) enabling vendors to manage stores and customers to make purchases. Features include **JWT** for secure authentication, **Redux** for state management, **Stripe** for payments, **Cloudinary** for image handling, and **Socket.io** for real-time communication.

LMS E-Learning Platform | [repo link](#)

Built a robust Learning Management System using **Next.js**, **TypeScript**, and the **MERN stack**. Features include **secure authentication** with **JWT**, **course management** for users and instructors, an **admin dashboard** for managing content and analytics, **Socket.io** for real-time-notifications and **Stripe** integration for payments. Designed to create an engaging online learning experience.

Doctor Appointment Booking Platform | [repo link](#)

Developed **Prescripto**, a user-friendly doctor appointment booking website using **React.js**, **Node.js**, and **Express**. The platform features secure **JWT authentication**, **Stripe integration** for payments, and an admin dashboard for managing users and doctors. Designed with **Tailwind CSS**, it offers a modern, responsive experience for both patients and healthcare providers.
