WORK EXPERIENCE

RPA Developer Freelancing

Achievements/Tasks

- Automated complex workflows in EMR/EHR systems, driving efficiency and accuracy.
- Led full lifecycle development from requirements to deployment for robust RPA solutions.
- Provided proactive post-implementation support, ensuring optimal automation performance
- Leveraged advanced UiPath features to design resilient, compliant automation processes
- Integrated automation into healthcare IT infrastructures, reducing administrative burdens.

Operator Incharge Emporium Mall

Achievements/Tasks

- Received recognition for outstanding performance and leadership contributions

Python Django & React Tags Solutions (Internship)

EDUCATION

Bachelor's in software engineering University of Central Punjab

MERN Base Project

Achievements/Tasks

- FYP 'Authpoint,' my Final Year Project, a platform inspired by Upwork, where users could purchase books, request customizations, and communicate directly with authors. I documented project specifications and successfully implemented sentiment analysis using machine learning techniques, enhancing user interaction and experience by implementing different features
