Analysis Explanation

CV Shortlisting Explanation:

Matching Process Explanation:

1. Embedding Generation:
 - Using DistilBERT model for creating text embeddings
 - Both JD and CVs are converted to 768-dimensional vectors
2. Similarity Calculation:
 - Cosine similarity used to measure document similarity
 - Scores range from 0 to 1 (1 being perfect match)

Job Description:
We seek a passionate and proactive Frontend Developer Intern to join our Web development team. The ideal candidate will have a basic understanding of web development and want to learn more about HTML, CSS, JavaScript, and cross-browser/cross-platform web development. As a Frontend Developer Intern, you will assist the team in designing, developing, and deploying web applications using modern frameworks like React JS, and Next JS.
Responsibilities:
1. Assist in the development of high-quality, responsive web applications using React JS/ VueJS.
2. Collaborate with senior developers and designers to implement UI/UX designs.
3. Write clean, maintainable, and efficient code using React JS/ VueJS.
