

Ahmad Taj

JUNIOR SOFTWARE ENGINEER

About Me

I am junior software Engineer focusing on programming language's and web developing. Coding has been my passion since school days. I have been learning new languages and frameworks ever since. In just a few words, I possess a rare combination of quick learning, passion and commitment to work.

Experience

Academic Projects

2023 - Present

- I've gained hands-on experience with front-end development by building a complete website using HTML, CSS, JavaScript, and CURD using PHP Laravel. I am presently learning and working on Next.js (framework) to improve my front-end skills. Additionally, I am developing Android mobile apps using Kotlin.

2021 - 2023

- I actively participated in the College Science Exhibition by developing the front-end of an interactive science website. This project allowed me to improve my web development skills and develop my interest in coding.
- Collaborated with my elder brother on 1-2 C# projects, gaining hands-on experience in software development practices.
- Exposed to Angular framework development through observation and discussions with my brother.
