PROFILE

I am a highly motivated computer science student with a passion for learning and technology. My goal is to enhance my educational and professional skills in a dynamic and stable workplace, allowing me to effectively tackle the challenges of the professional industry and contribute to organizational success.

WORK EXPERIENCE

• EXPRESS IT

Express IT is a web application that is based on e-commerce. In this project, we sell the products/gadgets of IT, including Software, hard drives, RAM, etc. Also, we give the doorstep service to solve the problems of people in installing software, and other any issues.

• IT ADMINISTRATOR

As an IT Administer & Campus Manager, I am managing the portal of Unique Academy to maintain data of students, make its progress reports, etc. I also collaborated with Teachers and the Principal to organize the classes and academy respectively.

• LIBRARY MANAGEMENT

I have developed a user-friendly LMS, allowing effortless addition of books, renaming books, deleting books, finding the books, etc. In this system, I work as a student also as a Librarian.
