Profile

I am a skilled React Developer specializing in building responsive and efficient web applications. My expertise includes React.js, Redux, and modern JavaScript, with a focus on delivering seamless user experiences. I translate designs into high-quality code and prioritize performance, accessibility, and maintainability in every project. A proactive problem-solver, I enjoy collaborating to create innovative solutions. My commitment to continuous learning ensures I stay updated with the latest industry trends and best practices, making me a valuable asset to any development team.

Education

BS Information Technology, *University of Education Lahore*
Cgpa : 3.2 / 4.0

09/2020 – 06/2024

Professional Experience

Technisia — 05/2024 – Present

- Develop and maintain responsive web applications using HTML, CSS, JavaScript, Bootstrap, jQuery, JSON, and Axios.
 - Lead frontend development for key projects, including an e-commerce website backend integrated with Firebase.
 - Implemented a pizza delivery application with user-friendly interfaces and seamless functionality.
 - Collaborate with cross-functional teams to deliver high-quality products on time.
 - Optimize code for performance, accessibility, and cross-browser compatibility.
- Regularly update and refine UI components to ensure a modern, consistent user experience .

Projects

E-Commerce Website [🔗](#)

- **Admin Panel:** Developed for managing products, orders, and customers.
- **User Panel:** Created for browsing products, tracking orders, and account management
- **Search:** Built a quick and efficient product search by keywords and categories.
- **Cart:** Implemented add/remove cart features with Redux Toolkit.
