

# Muhammad Ameer Hamza

## Frontend Developer

### SUMMARY

As a dynamic Frontend Developer, I bring a fresh perspective to web application development. With a robust skill set encompassing VueJS, Bootstrap, HTML, CSS, and JavaScript, I am committed to crafting intuitive and visually appealing user interfaces. Leveraging 1.5 years of UI/UX design experience, I excel in creating seamless and user-centric web experiences. Proficient in frameworks like Konva and ChartJS, I am dedicated to staying at the forefront of frontend technologies. My adaptability, coupled with expertise in Git, Docker, Cypress, and more, positions me as a valuable asset for delivering innovative and polished web solutions.
