📍 Lahore ,pakistan

I Am enthusiastic to take on new challenging tasks, this is the way to gain further knowledge. I also enjoy pursuing the latest topics. I hope to come across a firm which allows me to illustrate my talents which in an environment that promotes teamwork and professional growth.

Experience

Flutter Course | Desired Technology

- I have actively learned the basics of Flutter and Dart to align myself with the future of mobile development and innovation. My journey into Flutter development has provided me with a solid foundation in building cross-platform applications and creating responsive, user-friendly interfaces. I have gained a good understanding of state management, API integration, and app performance optimization through academic projects and personal experimentation. While I am at the beginning of my career, my experience working on diverse projects, from simple apps to more complex systems, has sharpened my problem-solving skills and attention to detail. I am passionate about leveraging technology to craft exceptional user experiences and am eager to further develop my skills through a Flutter internship, where I can learn, grow, and contribute to meaningful projects.
