OBJECTIVE

Motivated and detail-oriented Software Engineer with a strong foundation in software development and a keen enthusiasm for learning new technologies. Seeking a challenging position that allows me to leverage my skills in programming, problem-solving, and innovation, while continuously expanding my technical expertise and contributing to the success of the team.

EDUCATION

Bachelors in Software Engineering, University of Management and Technology   2020 - 2024
Relevant Coursework: Android Development & Web App Development.

SKILLS

Technical Skills	Javascript, Node.js, Express, React.js, Next.js, Vue.js, Vuex, Nuxt.js
Soft Skills	Dedicated, Hardworking, Work Ethics, Punctual

EXPERIENCE

Associate Software Engineer   July 2024 - Sept 2024
Programmer Force   *onsite*

- Developed and maintained front-end applications using Vue.js for creating scalable and high-performance web interfaces.
- Leveraged Vuetify to design responsive, visually appealing, and user-friendly UI components, ensuring a consistent look and feel.
- Implemented state management solutions with Vuex, handling complex application state and improving maintainability.

MERN Stack Internee   May 2023 - Aug 2023
Augmentoria   *Remote*

- Gained hands-on experience in full-stack development using the MERN (MongoDB, Express.js, React, Node.js) stack.
- Utilized MongoDB for efficient database management and performed CRUD operations.
- Built dynamic and interactive user interfaces with React, incorporating state management with Redux.

PROJECTS

Recordly Website Designed and developed a recording extension and its back office using Vue.js, Vuetify, and Vuex, ensuring a user-friendly interface with efficient state management and seamless UI for managing recordings..

ELT Website Designed and developed a responsive front end for the ELT website using Vue.js, Vuetify, and Vuex, ensuring a seamless user experience and consistent UI and efficient state management

Bidding Website Developed a full-featured bidding website using the MERN stack, providing users with a platform to bid for job.

Bike Parts Selling Mobile App. Designed and developed a mobile application for buying and selling bike parts using Android Studio..

Hospital Management System Designed and normalized a relational database using MySQL to store and manage patient, staff, and appointment data.

EXTRA-CURRICULAR ACTIVITIES

- Photography Skills

- Photo Editing using Adobe lightroom

- E-Sport Player (Tekken Player)

- Beatboxing (Art of making sounds with mouth)

- Taekwondo (Korean Martial Arts)
