EDUCATION

Bachelor of Computer Science   **2020-2024**
University Of The Punjab

SKILLS

HTML	React
CSS	Redux Toolkit
Bootstrap	OOP
JavaScript	Github

PROJECT

LAW360   (FINAL YEAR PROJECT)

Law 360 is a comprehensive web application designed to streamline the process of legal consultations and case management. The platform facilitates seamless interaction between lawyers and clients, offering a user-friendly interface for appointment scheduling and lawyer hiring.

PERSONAL PORTFOLIO WEBSITE

A personal portfolio website designed to showcase my skills, projects, and contact information. The website features a clean and responsive layout using HTML, CSS, and JavaScript. Includes sections like "About Me," "Projects," and "Contact.".

KOSELIGHAR APP FOR NAPOLEON TEA

Developed the frontend for the Koselighar app, an e-commerce platform designed for Napoleon Tea. The app provides a seamless user experience for browsing, selecting, and purchasing tea products. Key features include product listing, search functionality, a user-friendly shopping cart, and a secure checkout process. Focused on creating a responsive and visually appealing interface that adapts to both mobile and tablet devices.

WEATHER DASHBOARD

Developed a weather dashboard that fetches and displays weather data from an API.
- Features: Search functionality for cities, real-time weather updates, and a user-friendly interface.
- Technologies: React, Axios, CSS.

EXPERIENCE

FRONTEND DEVELOPMENT   (INTERNSHIP)

During my internship at LimeCircle Technology, I developed a strong foundation in web development by learning key technologies such as HTML, CSS, Bootstrap, JavaScript, React and Redux toolkit as well . I applied these skills to various real-world projects, enhancing my ability to build responsive and dynamic web applications.
