Job Description:

We seek a passionate and proactive Frontend Developer Intern to join our Web development team. The ideal candidate will have a basic understanding of web development and want to learn more about HTML, CSS, JavaScript, and cross-browser/cross-platform web development. As a Frontend Developer Intern, you will assist the team in designing, developing, and deploying web applications using modern frameworks like React JS, and Next JS.

Responsibilities:

1. Assist in the development of high-quality, responsive web applications using React JS / Vue JS.
2. Collaborate with senior developers and designers to implement UI/UX designs.
3. Write clean, maintainable, and efficient code using React JS/ Vue JS.
4. Participate in debugging and testing applications to ensure optimal performance.
5. Learn and apply best practices for web development, including version control and agile development methodologies.
6. Stay updated with the latest trends and advancements in web app development and the JS frameworks.

Qualification:

1. Pursuing a degree in Computer Science, Software Engineering, or a related field.
2. Basic knowledge of web app development (HTML, CSS, Type-script).
3. Familiarity with React JS / Vue JS or any other modern JavaScript frameworks.
4. Understanding of REST APIs and third-party libraries.
5. Basic knowledge of version control systems (Git).
6. Good problem-solving skills and attention to detail.
7. Strong desire to learn and grow in the field of mobile app development
