# AHMAD MUJTABBA

SOFTWARE DEVELOPER

## PROJECTS

### ONLINE MOVIE TICKET BOOKING SYSTEM

Final Year Project

**Overview:** A web-based platform for purchasing movie tickets online, allowing users to select seats from home. Includes an admin panel for movie management and booking data tracking.

**Technologies:**
- **Frontend:** HTML, CSS, JavaScript
- **Backend:** PHP
- **Database:** MySQL

**Features:**
- **User Registration/Login**: Secure account access
- **Movie Listings**: Details on current films
- **Seat Selection**: Interactive seating chart
- **Booking Confirmation**: Email notifications
- **Admin Panel**: Manage movies, bookings, and user accounts

### TECHNICAL TRAINING INSTITUTE WEBSITE

**Overview:** A website facilitating student admissions and updates for administrative staff.

**Technologies:**
- **Frontend:** HTML, CSS, JavaScript
- **Backend:** PHP

**Key Features:**
- **Student Admission Form:** Online registration for students.
- **Admin Portal:** Generate lists of submissions and manage related data.
- **Updates Section:** Display important course and event information.

### PHONEBOOK WEBAPP

**Overview:** A React JS application for managing contacts.

**Technologies:**
- **Frontend:** React JS
- **Backend:** Axios, JSON Server

**Features:**
- Add, delete, and search contacts.

## ABOUT ME

Recent Computer Science graduate with foundational problem-solving skills and a leadership mindset. Proficient in programming and web design. Seeking a position to apply my knowledge, contribute to your organization, and further develop my skills as I work toward becoming a competent software engineer.

## EDUCATION

**VIRTUAL UNIVERSITY OF PAKISTAN, 2023**

BS Computer Science

## TECHNICAL COURSES

Introduction to Computing
Introduction to Programming
Object Oriented Programming
Data Structures
Web Design and Development
Computer Networks
Software Engineering
Fundamentals of Algorithms

## SKILLS

HTML
CSS
JavaScript
React JS
Node.js
Express.js
Figma
PHP
Requirement Analysis
Functional Programming
